

The Hungarian-owned VECTRA-LINE Plus Ltd was founded in 1995. Operating in Budapest, we are a printed material, stationery and office supplies wholesale and retail trade company with three sales channels: wholesale trade, office supply and retail webshops. We serve our partners from a 3000 sqm warehouse and head office. Our own brand called Fortuna offers a wide range of products from lever arch files to OHP markers. Vectra printing materials have been one of our key product categories since the very beginning of the Company's existence, and are supported by both direct import from and own manufacturing operations in various countries, including China, Singapore, Turkey, Slovenia, Poland, Germany, Czech Republic, Romania and Slovakia.

We have forged well-established and long-term relationships with our wholesale partners, and they show strong loyalty to the Company. We offer them

- well-stocked and finely tuned webshop with direct automatic connection to our system;
- average delivery times under 24 hours;
- acceptance of orders at and support from our wholesale webshop;

- free delivery over HUF 15,000 (≈ EUR 41);
- complementary services (tailor-made items, solutions, such as stamps, printed materials and many more, as well as dropshipping services, Fortuna Fleet, etc.).

Last year with the unfortunate onset of the Covid-19 pandemic, we more closely adapted our range to existing customer demands, and now are able to supply a broader range of products, including surgical masks, hygienic brands, antibacterial agents.

Our goal is to serve the partners all the necessary products and solution for office and home office use alike. We are always in quest for new purchasing possibilities, novel products and brands. We would like to align our product selection with the continuously changing needs of customers now and in the future.
